

Online Interview Technical Support

**You are participating in an interview via a web-based platform.
Be aware that we can all hear and see what you are doing.**

The following are non-negotiables during online interviews:

1. You must have video and audio capabilities on a computer (i.e., a microphone, webcam and working speakers). **You may not log on using a mobile device.**
2. You must be in a quiet space, free of distractions and noise. Consider using headphones.
3. You must be dressed in appropriate attire, as we can see you.
4. You must have a reliable, online connection. This means a setting where you will not frequently lose service (i.e., your car or on the train).

How to log on for your interview:

1. Log on by pasting the web address sent via email by the Office of Admissions & Recruitment (edadmissions@hunter.cuny.edu) into your browser and wait for the interviewer to give you meeting access.
2. Next, **turn on your webcam** by clicking on "Start Video" at the bottom right of your Zoom meeting screen.
3. Make sure your speakers are on and working. This is something you will need to check on your own personal computer.

Note: Interviews are normally scheduled in 20 minute intervals.
